**Motor Vehicle Driver's  
Certification of Compliance with Driver License Requirements**

**MOTOR CARRIER INSTRUCTIONS:** The requirements in Part 383 apply to every driver who operates in intrastate, interstate, or foreign commerce and operates a vehicle weighing 26,001 pounds or more, can transport more than 15 people, or transports hazardous materials that require placarding.

The requirements in Part 391 apply to every driver who operates a vehicle weighing 10,001 pounds or more, can transport hazardous materials that require placarding.

**DRIVER REQUIREMENTS:** Parts 383 and 391 of the Federal Motor Carrier Safety Regulations contain some Requirements for the driver's license effect as of July 1, 1987. They are as follows:

1) **POSSESS ONLY ONE LICENSE:** You, as a commercial vehicle driver, may not possess more than one motor vehicle operator's license.

If you currently have more than one license, you should keep the license from your state of residence and return the additional licenses to the states that issued them. DESTROYING a license does not close the record in that state that issued it; you must notify the state. If a multiple license has been lost, stolen, or destroyed, you should close your record by notifying the state of issuance that you no longer want to be licensed by that state.

2) **NOTIFICATION OF LICENSE SUSPENSION, REVOCATION OR CANCELLATION:** Sections 392.42 and 383.33 of the Federal Motor Carrier Safety Regulations require that you notify your employer the next business day of any revocation or suspension of your driver's license. In addition, Section 383.31 requires that any time you violate a state or local traffic law (other than parking), you must report it to your employing motor carrier and the state that issued your license within 30 days (if the violation occurs in a state other than the one which issued your license). The notification to both the employer and state must be in writing.

**Driver Certification:** I certify that I have read and understood the above requirements. The following license is the only one I possess:

INFORMATION UNDER REGULATION 391.23**

- \*(a)(1) An inquiry into the driver's driving record during the preceding three years to the appropriate agency of every State in which the driver held a motor vehicle operator's license or permit during those three years.
- \*(a)(2) an investigation of the driver's employment record during the preceding three years.
- \*(b) A copy of the driver record(s) obtained in response to the inquiry or inquiries to each State driver record agency as required must be placed in the Driver Qualification File within 30 days of the date the driver's employment begins and be retained in compliance with 391.51.
- \*(c) Replies to the investigations of the driver's safety performance history must be placed in the Driver Investigation History File within 30 days of the date the driver's employment begins. This goes into effect after October 29, 2004.
- \*(d) Prospective motor carrier must investigate the information from all previous employers of the applicant that employed the driver to operate a CMV within the previous three years. This information must cover general driver identification and employment verification information, data elements as specified in 390.15 for accident involving the driver that occurred in the three-year period preceding the date of employment application and any accidents the previous employer may wish to provide.
- \*(e) Prospective motor carrier must investigate the information from all previous DOT regulated employers that employed the driver within the previous three years from the date of the employment application on a safety sensitive function that required alcohol and controlled substance testing specified by 49 CFR Part 40.

**Drivers have the following rights:**

1. The right to review information provided by previous employers.
2. The right to have errors in the information corrected by the previous employer and for that previous employer to resend the corrected information to the prospective employer.
3. The right to have a rebuttal statement attached to the alleged erroneous information, if the previous employer and driver cannot agree on the accuracy of the information.

Drivers who wish to review previous employer-provided investigative information must submit a written request to the prospective employer when applying or as late as 30 days after employed or being notified of denial of employment. The prospective employer must provide this information to the applicant within 5 business days of receiving the written request. If the driver has not arranged to pick up or receive the requested records within 30 days of the prospective employer making them available. The prospective motor carrier may consider the driver to have waived his/her request to review the records.

Drivers wishing to request correction of erroneous information in records must request for the correction to the previous employer that provided the records. After October 29, 2004, the previous employer must either correct and forward the information to the prospective motor carrier employer or notify the driver within 15 days of receiving the driver's request to correct the data that does not agree to correct the data. Drivers wishing to rebut information in records must send the rebuttal to the previous employer with instruction to include the rebuttal in the driver's Safety Performance History.
